Curriculum Vitae (CV) of

DISHAN MAJUMDER

Ph.D. applicant at the Department of Mechanical Engineering

dishan60@gmail.com
(+880) 1815554912

RESEARCH INTERSET

Composite Material	Structural Analysis	Thermodynamics
Nanotechnology	Fatigue & Crack Analysis	Underwater-robotics

PROFESSIONAL EXPERIENCE

❖ **Executive** (April 2025-Present)
DECO Limited
- Coordinate with engineering, operations, and supply teams to deliver end-to-end energy solutions.
- Build and maintain client relationships, support negotiations, and contribute to business development and market expansion.
- Technical sales activities for LPG–SNG system solutions, including client consultation, site assessment, and requirement analysis.
- Prepare technical proposals, cost estimates, and presentations aligned with client operational needs and safety standards.

❖ **Civil Instructor** (June 2023-March 2025)
Bangladesh Naval Academy (BNA), Bangladesh

Conducted Courses:
- Hydrostatic & Stability
- Introduction to Naval Architecture & Marine Engineering
- Mechanical Drawing
- Basic Ship Design-I

Additional responsibilities:
- In charge of "Ship Design Studio" lab & "Engineering Model Room" lab.

❖ **Undergraduate Intern** (March 2021- April 2021)
Khulna Shipyard, Khulna, Bangladesh

Skills learned: Drafting techniques, conducting weight calculations for ship structures, performing stability and resistance calculations for ships, developing engine foundation designs, creating structural design plans for ship components, conducting stability simulations, collaborating effectively in a professional shipbuilding environment.

EDUCATIONAL BACKGROUND

B.Sc in Naval Architecture & Marine Engineering 2018-2021
Military Institute of Science and Technology (MIST), Bangladesh
Overall CGPA: 2.82 (CGPA of last 3 semesters, 58 credit hours: 2.82)

Relevant Courses: Hydrostatics and Stability, Ship Design and Drawing, Mechanics of Structure, Shipbuilding Materials and Metallurgy, Fluid Mechanics, Computer Aided Design (CAD), Marine Hydrodynamics, Theories of Resistance and Propulsion, Composite Materials, Theory of Machines and Machine Elements Design, Heat Transfer, Power and Propulsion System.

UNDERGRADUATE THESIS & PROJECT

- **An alternative Proposal for Jetty and Pontoon Design in Paturia Ferry Ghat** (Thesis) 2021

This study aims to create a permanent solution for Paturia Ghat by designing a ghat area layout to cope with seasonal water level change. Analyzing hydro-morphological data of previous decade, three subdivision lanes were created and a specialized pontoon was created for ferry, passenger vessel, and engine boats using AutoCAD and Solidworks software.
Supervisor: Dr.S M Ikhtiar Mahmud, MIST

- **Design a 180 TEUs CARGO CONTAINER SHIP which will operate through Dhaka to Payra Port** (Project) 2020

Throughout a yearlong design project for a 180 TEU cargo container vessel, tasks such as drafting a GA plan, lines plan, weight calculations, deck plans, stability calculation, resistance calculation, engine foundation etc. were undertaken. The project employed AutoCAD and Rhinoceros software for 2-D and 3-D design, while stability simulation was conducted using Maxsurf. The objective of the project was to generate a comprehensive plan for the vessel design.
Supervisor: Dr.S M Ikhtiar Mahmud, MIST

TECHNICAL STRENGTH

CAD Software	Solidworks, AutoCAD, Rhinoceros
Simulation Software	Maxsurf, Ansys, MATLAB
Programming Languages	Python, C, C++
Paper Writing Software	Latex, Microsoft Word, Excel

PUBLICATIONS

Mahmud, S. M. I., **Majumder, D.**, & Fahim, S. H. (2023). An alternative proposal for jetty and pontoon design in Paturia Ferry Ghat. Proceedings of 13th International Conference on Marine Technology. SSRN. http://dx.doi.org/10.2139/ssrn.4442508
Supervisor: Dr.S M Ikhtiar Mahmud, MIST

EXTRACURRICULAR ACTIVITY

- **Department Cultural Captain** of NAME dept. 2021.
- **Vice President** of MIST Literature & Cultural Club.
- **Executive Director (organizing)** of MIST Robotics Club.

Activities

- **Conducted** several Visits on engineering equipment at "**Engineering Model Room**" in BNA.
  2023-present
- **Organized** several **mist cultural events** after the **pandemic** with the collaboration of other dept. cultural captains.
  2021-2022
- **Organized** inter university **national cultural events** comprising of **12 segments** with over **800 participants** entitled "**AUNKUR-2019**" & "**AUNKUR-2018**"
  2019-2021
- Played role of a **key organizer** of inter university national robotics events with over **900 participants** entitled "**ROBOLUTION-2019**" & "**ROBOLUTION-2018**"
  2019-2020
- **Teaching** Physics, Chemistry, Math of both O & A Level Students.
  2018-present

Conference attended

- 13th International Conference on Marine Technology, 2022 (MARTEC), BUET
- 2nd International Conference on Mechanical Engineering and Applied Sciences, 2022 (ICMEAS), MIST

REFERRENCES

- Dr. S M Ikhtiar Mahmud (Thesis Supervisor)
  Assistant Professor, Department of Naval Architecture & Marine Engineering
  Military Institute of Science and Technology (**MIST**)
  Email:ikhtiar@name.mist.ac.bd
- Md. Mezbah Uddin (Course Teacher)
  Assistant Professor, Department of Naval Architecture & Marine Engineering
  Military Institute of Science and Technology (**MIST**)
  Email:mezbah@name.mist.ac.bd
